

About Us:

Our company was established in the Food Specialized Organized Industrial Zone in the southeastern region of Turkey. Our factory began operations in an enclosed area of 3750 m² (40,365 square feet). The annual production capacity of our factory is 2,500 tons. Our production range currently includes semi-dried frozen tomatoes, semi-dried frozen vegetables, semi-dried frozen fruits, as well as oven-dried fruits and vegetables.

Our factory building was constructed in accordance with high food safety standards. Our facility adheres to strict food safety standards, ensuring that every stage of the process, from seedling cultivation to shipment, is meticulously supervised and controlled.

Physical, chemical, and microbial analysis of our products is carried out in our laboratory within the facility. Our company is certified at BRCGS A GRADE level.
